

DynaMed Plus® Mobile App Now Available on CKN

DMP

Take *DynaMed Plus* with you on your tablet or smartphone wherever you go. With the *DynaMed Plus* mobile app, you will have easy access to clinical information by using the mobile app available for iOS and Android devices.

Mobile app provides:

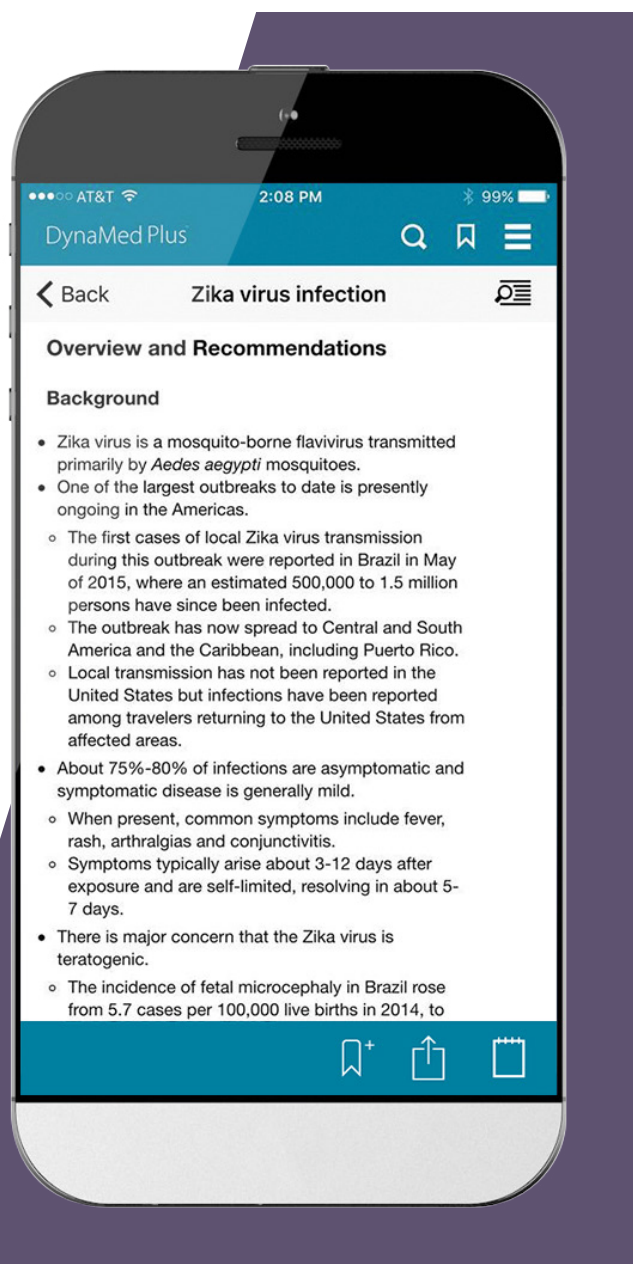

- Enhanced search
- Offline access
- Fast content download
- Silent updates
- Easy navigation
- Seamless authentication

Mobile app features:

- Access content offline
- Bookmark favourites
- Write and save notes about particular topics
- Email topics

Download the *DynaMed Plus* App Today!

1. While onsite at your hospital, go to your desktop version of *DynaMed Plus* and click on "Mobile use: Get the *DynaMed Plus* Mobile App" under the Spotlight section of the product.
2. Submit your email address, open up the email on your mobile device and follow the app download instructions provided. You can use your home or personal email address if your work email is unavailable on your mobile device.
3. Be sure to download the app at home, or offsite, as Wi-Fi access and hospital bandwidth restrictions may apply.
4. It will take 10 - 30 minutes to install the initial *DynaMed Plus* content. Your device is ready to go!
